We LOVE Dogs!

Having a dog can be one of the great pleasures of life. At *Day-One Dog Training*, it's our mission to help all dog-owners enjoy their dogs as much as we enjoy ours! Almost any dog—of any age—can learn to be your well-behaved best friend and companion.

**You can train your dog...
and we'd love to help you!**

Why do we call it "Day-One" Dog Training?

Because the best day to begin training is the day your dog comes home...*Day-One!*

But it's never too late to start. We take the mystery out of training. We teach you how to teach your dog to be a great pet and pal, using humane and effective **Positive Reinforcement** techniques anyone can master.

And we make training fun for both humans and dogs. Having fun makes us better teachers—and makes our dogs better students. With our coaching, you can successfully train your dog so he won't pee on the rug, chew the woodwork or chomp the vet—and will reliably listen to you.

What's the Secret?

Every interaction with your dog is a teaching opportunity, including:

- **Feeding**
- **Walks**
- **Playtime**
- **Sleeping**
- **Car trips**
- **And much more**

You'll learn how to make all your daily encounters part of the teaching process... and you'll be amazed at the progress you and your dog will achieve as you build a relationship based on understanding, trust and love!

There's no single right way to train every dog. So we'll show you different options,

explain how they work and help you make the best choices for you, your family and your dog.

Common Sense & Puppy Love

Experience has taught us effective ways to head off all sorts of typical dog problems. We can help you avoid bad habits—or fix them. We offer two options:

- **Group Classes** for puppies up to 2 years old
- **Private Sessions** at your home, for dogs of any age

Group Puppy Classes

Our 7-week puppy program covers all the basic commands...plus lots of practical "extras" other classes may not offer—great tips to help keep your pup safe, happy and healthy...and help you keep your sanity!

Our group puppy class meets in a spotless, climate-controlled indoor space. We cover lots of essential material in manageable "bite-sized" chunks, with time for questions and demonstrations.

Class size is limited to 10 dogs—big enough for beneficial puppy socialization and play, small enough for you and your puppy to get individual attention.

Group classes meet for one hour each week. Family members (over age 7) are welcome.

Please call us at (410) 796-5349 for schedule and details on our next class.

Here's our group class curriculum:

Class 1 - Orientation

- The Two Commandments of Training
- Who's in Charge? How Dogs Think
- Making Training Fun!
- Leash in the House

Class 2

- Getting Pups to Pay Attention
- Clicker training!

Private Sessions

No matter what breed or age your dog may be, convenient and affordable private sessions at your home include these big benefits—

- **Individualized coaching to help you develop effective training strategies**
- **Plenty of time for questions**
- **Immediate focus on your specific needs and top-priority problems**

We'll give you suggestions for—

- **Saving wear and tear on your house**
- **Helping your dog learn good habits**
- **Providing your pet with a safe place to grow and learn**

Appointments are available weekdays, day-time and evening. Please call us for more information, rates and scheduling.

House-calls for Puppies

Most puppy classes don't take pups until they're 3 or 4 months old. But many of us get puppies when they're 8 to 10 *weeks* old—which could mean waiting a month or more before your pup can start school.

Since early training delivers the best results, there's no need to wait. A home session or two can help you fill that crucial gap with education. The sooner you start teaching puppies, the faster they'll learn good manners!

House-calls for Older Dogs

If your grown-up dog has a few habits you'd like to change, one-on-one training sessions at your home are the best way to solve such problems as:

- **Excessive barking**
- **Pulling while on-leash**
- **Jumping up on people or furniture**
- **"Potty-training" issues**
- **Chewing & destructive behavior**
- **Separation anxiety**
- **Behavior with babies or new pets**
- **And much more!**

Some behavioral problems are easy to fix. Others can be pretty complicated. But most problems *do* have solutions—and we'll help you find them!
